**Whitechurch portfolios are based on Distribution Technology Risk Ratings**

The ARC Benchmark is an industry performance average to provide a clear comparison of Whitechurch investment performance against other companies with portfolios with the same level of risk. To better reflect the composition of our 3/10 risk strategies, we have, from Q2 2022, moved to a more appropriate benchmark based on the **Bank of England base rate**.

**Source:** Whitechurch Securities, FE Analytics. Performance figures are calculated to 30/06/2024 net of fees in sterling. Unit Trust prices are calculated on a bid-to-bid basis OIECs, Investment Trust and Share prices are calculated on a mid-to-mid basis, with net income reinvested. The value of investments and any income will fluctuate and investors may not get back the full amount invested. Currency exchange rates may affect the value of investment. Benchmark figures are based on ARC estimates and are subject to revision.
